## FULL SERVICE IP FIRM

With more than 375 intellectual property lawyers, Finnegan is one of the largest IP law firms in the world. From offices in the United States, Europe, and Asia, the firm practices all aspects of U.S. patent, trademark, copyright, and trade secret law, including counseling, prosecution, licensing, and litigation. We also represent clients on IP issues related to international trade, portfolio management, the Internet, e-commerce, government contracts, antitrust, and unfair competition.

## INDIA PRACTICE

Finnegan is active in the Indian IP legal community. Our attorneys regularly visit India and have hosted seminars and educational events for many organizations, including the Bombay Chamber of Commerce and Industry, the Bangalore Chamber of Commerce and Industry, the Confederation of Indian Industry, the US-India Business Council, and the National Association of Software and Services Companies (NASSCOM). Finnegan believes that with the increased IP creation in India and the market penetration that Indian multi-national companies seek in the United States, strategic counseling on IP matters, including patents, trademarks, and IP acquisition and licensing, can play a key role in advancing corporate business goals.

Accordingly, our seminars in India have focused on the critical role that IP plays in strengthening a market presence in the United States and on increasing awareness related to U.S. IP matters. We have also met with a number of Indian companies, individually, to discuss their IP and business interests related to the U.S. market. Moreover, we have worked with a number of global companies to assist them in setting up internal systems to generate tangible IP assets on a sustained basis. This insight and experience can be of significant value to Indian companies that are growing their IP programs. As Indian businesses continue to expand their markets in the United States, their IP needs will increase, and we are poised to assist them.
